

AI-Powered Customer Support & Service Automation Using Salesforce Communication

Project Name	AI-Powered Customer Support & Service Automation Using Salesforce
Maximum Marks	1 Mark

Communication Plan

Effective communication played a vital role in the successful development of the AI-Powered Customer Support & Service Automation Using Salesforce project. Throughout the project lifecycle, team members maintained regular communication to discuss project progress, resolve technical issues, review completed tasks, and prepare for the final project demonstration. Communication was carried out through online collaboration tools and regular discussions to ensure timely completion of all project milestones.

Communication Schedule

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Stand-up Meeting	Daily	WhatsApp & Google Meet	Mercy Pranathi Gopi, Maneesh	Discuss daily progress, assign tasks, and review completed work.
2	Project Progress Update	Weekly	Google Meet	Mercy Pranathi Gopi, Maneesh	Review completed modules, monitor milestones, and plan upcoming tasks.
3	Issue / Bug Discussion	As Needed	WhatsApp Chat & Salesforce	Mercy Pranathi Gopi, Maneesh	Resolve Salesforce configuration issues, Flow errors, and AI integration challenges.
4	Faculty / Mentor Review	Bi-Weekly	Google Meet	Team Members & Mentor	Receive project feedback, validate implementation, and discuss improvements.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
5	Final Demo Rehearsal	Once	Google Meet	Mercy Pranathi Gopi, Maneesh	Practice the complete project demonstration and finalize presentation flow.
6	Documentation Review	As Needed	Microsoft Word & GitHub	Mercy Pranathi Gopi, Maneesh	Review project documentation, GitHub repository, and submission files before final submission.

Communication Challenges & Resolutions

S.No	Challenge Faced	Resolution / Action Taken
1	Difficulty configuring Salesforce Flows and AI features.	Conducted joint troubleshooting sessions, referred to Salesforce Trailhead documentation, and tested configurations until successful.
2	Coordinating documentation and project implementation tasks.	Divided responsibilities between team members and reviewed each deliverable before submission.
3	Ensuring readiness for the final project demonstration.	Performed multiple rehearsal sessions, verified all project modules, and prepared answers for expected evaluation questions.

Roles & Responsibilities

Team Member	Primary Responsibilities
Mercy Pranathi Gopi	Led project development, Salesforce configuration, custom object creation, Validation Rules, Record-Triggered Flows, Prompt Builder implementation, AI Summary generation, documentation, and major project demonstration.
Maneesh	Assisted in Salesforce application setup, testing, documentation review, project validation, demo preparation, and presentation support.
